testo 162 T1 – WiFi Data Logger with Display and Integrated Temperature Sensor

vedi prodotto online

CODICE: **0710038981621**
MARCA: **TESTO**

Check the temperature wherever you are, in real time.
 The testo 162 T1 online data logger is the ideal solution for automatic and continuous temperature monitoring in sensitive environments. Thanks to the integrated sensor and WiFi connection, the data is transmitted directly to the testo Saveris Cloud, where you can easily view and analyse it via smartphone, tablet or PC.

 MAIN FEATURES:
 - Constant temperature monitoring with integrated probe
 - Real-time alerts via email, SMS or push in case of limits exceeded
 - Large display for immediate visual control
 - Data transmission via WiFi
 - Compatibility with the testo Smart App for quick and easy management
 - Remote data access via the testo Saveris cloud (license required)

 PACKAGE CONTENTS:
 - Online data logger testo 162 T1
 - Micro USB cable
 - Wall mount with lock
 - 4 AA batteries
 - Quick Guide
 - Test protocol

 Quick installation, reliable technology and instant access to your data wherever you are.
 Perfect for laboratories, warehouses, museums, pharmaceutical environments and anywhere that temperatures need to be monitored precisely and documented.

 * The new Testo 162 works through a license with the new cloud system https://www.food.saveris.net/authentica
this license costs 20 euros with a duration of 12 months from activation for each datalogger.
