Refined and elegant, the Reyna dinnerware set is perfect for the holiday table and for important occasions. Ideal in a classic style but also suitable for a contemporary and glamorous table thanks to the simple, candid white porcelain, without decoration, highlighted by a hint of a light and soft festooning surrounded by a thin, fine and trendy gold line. The product, thanks to its clean appearance, with no frills, goes well with other table accessories such as placemats, fabrics and glasses, thus adapting to different mise en place themes.
