Four bowls, one gesture of style: this unique object reinterprets the concept of table container with a fluid and contemporary design. The bowls are joined together in a harmonious sequence, as if they were naturally blending into each other, creating a sinuous movement that immediately captures the eye.

The delicate and modern light blue interior contrasts with the warm wood effect of the exterior, creating a refined visual balance. Perfect for serving aperitifs, finger food, dried fruit or sauces in an original and creative way, it is designed for those who love to welcome with taste and personality.

Ideal in any convivial context, from the daily table to a special event, this object is not only functional but also a design element that tells of a new way of experiencing shared spaces and moments.
