SOLUZIONI FOODSERVICE

Organize and store smartly: the Araven 7-liter accessible container is designed to offer maximum hygiene, order in the kitchen and rigorous stock control according to HACCP principles.

Perfect for dry foods

Ideal for storing low humidity products such as:

- Legumes
- Dried fruit
- Pasta
- Rice

The protective seal prevents moisture from entering without requiring an airtight system, ensuring the quality of the contents in the long term.

- Integrated FIFO system

The container is designed according to the "First In, First Out" principle, thanks to the double loading and unloading lid, for an orderly rotation of food and efficient warehouse management.

- Maximum hygiene and traceability
- Easy to clean and durable.
- Complies with HACCP regulations.
- Solid structure designed for intensive use in professional environments.

- ColorClip for immediate visual management

Equipped with colored clips to better organize food according to type, work area or day of the week.

- Recommended use
- Store in dry, ventilated areas, away from sources of heat or humidity.
- Perfect for professional pantries, food storage or well-organized home kitchens.
