

THERMO FLAT SPOON cm.30

SOLUZIONI FOODSERVICE

Did you know that mixing with style and precision is possible? Here is our 30 cm Flat Thermal Spoon, an indispensable object in every professional kitchen. Made of robust polyacetylene and reinforced with fibreglass, it is resistant up to +180°. Ideal for turning and mixing your ingredients, its elegant design stands out for its practical perforation, useful for hanging it after use. Fully compliant with food contact regulations and conveniently dishwasher safe. A touch of quality made in Germany for your kitchen.
